

Project Profile Group Shower - Seal & Refurbish

After many years of trying to seal the chronic leaks in this shower, the owners of Vineland, NJ World Gym called **ADVANCED Polymer Repairs**. **ADVANCED** has successfully sealed hundreds of showers in universities, prisons and gyms. This system has been widely used by many Federal, State and County correctional facilities as well as colleges and universities for many years. World Gym

repeatedly caulked and re-grouted this shower only to have it leak under the wall and damage the carpet in the main hallway. The leaks are now a thing of the past and the owners proceeding with installing new carpeting. A similar problem in the Steam Sauna was also permanently repaired by **ADVANCED**.
